WELCOME TO TATE DOGE!

Deployed on Binance Smart Chain, Inspired by the recent Elon DOGE hype on twitter and the wrath of TOP G's release from prison, Tate Twoge is more than just a meme token. It's a project with a vision to empower people with decentralized finance and reward them for their participation with \$DOGE.

INTRODUCTION TO TATE TWOGE

Tate Twoge is a community driven project that puts its users at the center. With a range of utilities including a staking platform, a customised swap, and \$DOGE rewards, Tate Twoge creates value and opportunities for its users. By staking their tokens, users can earn passive income and contribute to the project's growth. By using the swap, they can trade their tokens and explore other assets on the Binance Smart Chain. And by earning Doge rewards, they can participate in the fun and excitement of the Doge meme whilst earning \$DOGE.

UTILITIES AT TATE DOGE!

STAKING PLATFORM

Tate Twoge's staking platform is designed to reward its users for holding and supporting the project. With four tiers ranked from TOP G's favourite cars, the staking platform offers an exciting and engaging experience for its users.

Starting with Tier 1 BMW, users can stake their tokens and earn rewards based on their tier level. As they move up the tiers, they can unlock more rewards and benefits, including higher staking yields, exclusive access to events, and personalised rewards.

Tier 2 is the Bentley tier, followed by Tier 3 Lamborghini, and the ultimate Tier 4 Bugatti. Each tier represents a higher level of prestige and rewards, reflecting the success and achievement of Andrew Tate himself.

At Tate Twoge, we believe in rewarding our users for their loyalty and contribution. That's why our staking platform is designed to be fair, transparent, and rewarding.

TATESWAP

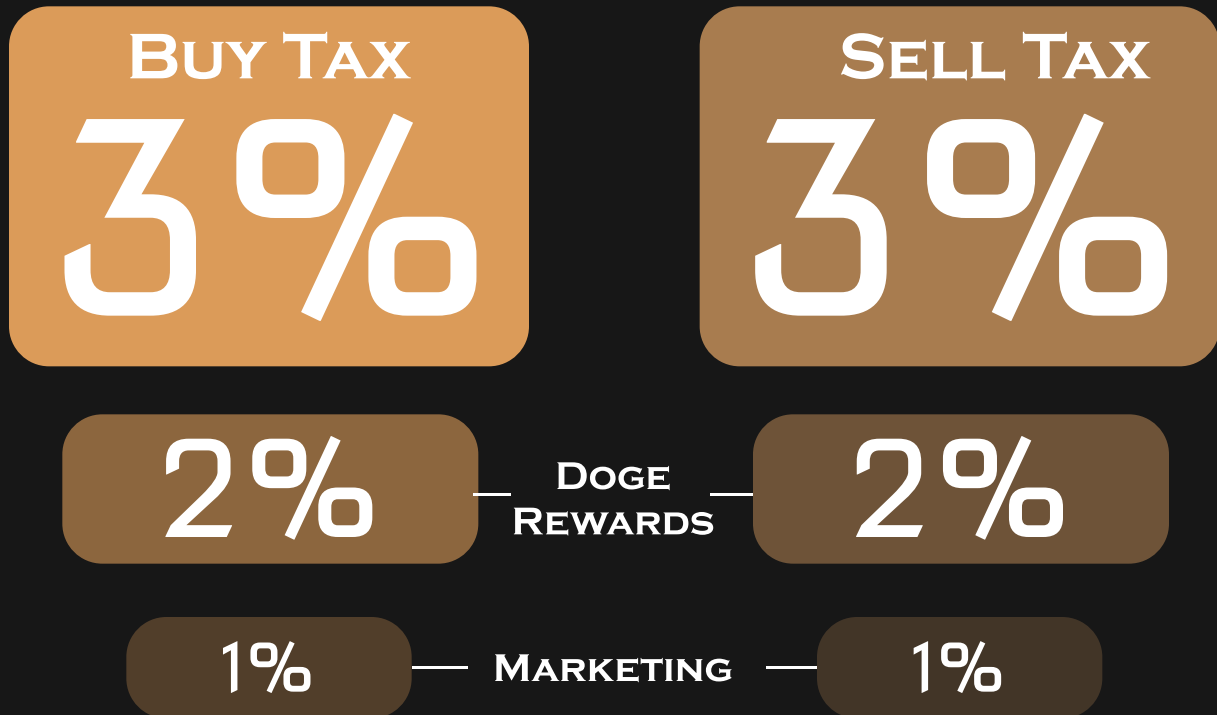

TateSwap, offers its users a seamless and secure way to trade their tokens and explore other assets on the Binance Smart Chain. With a user-friendly interface and fast transaction speeds, TateSwap is designed to provide a superior trading experience for our users.

TateSwap offers a wide range of trading pairs, including Tate Twoge, BNB, BUSD, and other popular tokens. Our custom swap is integrated with top liquidity providers to ensure deep liquidity and tight spreads, allowing our users to get the best possible prices for their trades.

DOGE REWARDS

Tate Twoge's Doge rewards program offers its users an exciting way to participate in the fun and excitement of the Dogecoin meme while earning rewards on their transactions. With our innovative rewards program, users will receive 2% Doge rewards from the buy and sell tax on our platform.
